Los Angeles, CA 90053

Dear Ms Lamb:

The Encino Neighborhood Parks Committee poses the following questions in response to the proposed Donald C. Tillman Water Reclamation Plant Multi-Use Facility Project to be built within the Sepulveda Dam Basin area.

What are the Los Angeles Bureau of Sanitation's long term (10+ year) construction plans for the diked Tillman Plant area and surrounding areas?

What is the description of the flood storage area after the evacuation of 752 cubic yards of earth?

How will parking for the up to 450 anticipated event guests be handled?

Thank You,

Debra George
Parks and Environment Advocate
Encino Neighborhood Council
