Dear Encino Neighborhood Council,

Encino Charter Elementary School respectfully requests a grant of \$5,000 to support the purchase of Promethean Boards for our classrooms.

Encino Charter Elementary is fortunate to have an exceptional team of dedicated teachers and staff who work tirelessly to inspire and educate our students. Our families partner closely with them through fundraising and volunteerism, and one of the most frequently expressed needs in recent years has been updated classroom technology. As technology continues to evolve, it has been some time since our teachers have received major advancements to enhance instruction and student engagement.

Thanks to the generosity of our school community, the E-TEAM—our parent booster organization—has already funded the purchase of 12 Promethean ActivPanel AP10 Boards with stands and four-year RADIX protection, each at a discounted cost of \$2,808.62. However, with 24 classrooms, a resource room, and dedicated spaces for occupational and speech therapy, we still have a long way to go to ensure every student benefits from this transformative technology.

A grant of \$5,000 from the Encino Neighborhood Council would allow us to purchase two additional Promethean Boards, bringing us closer to our goal. The E-TEAM will continue its fundraising efforts to cover the remaining \$617.24. Our vision is to equip every classroom with this interactive technology by the end of the 2026 calendar year, ensuring equitable access to 21st-century learning for all students.

Thank you for considering our request and for your ongoing support of the students, staff, and families of Encino Charter Elementary. Together, we can continue to provide the tools and opportunities our children need to thrive in today's ever-changing world.

With sincere gratitude,

Dr. Amy Besser

Principal, Encino Charter Elementary School

SECTION II - PROJECT DESCRIPTION

4) Please describe the purpose and intent of the grant.

Encino Charter Elementary School respectfully requests a grant of \$5,000 from the Encino Neighborhood Council to support the purchase of Promethean Boards for our classrooms. Our school is home to a dedicated team of teachers and staff who work tirelessly to create engaging, innovative learning experiences for all students. As instructional technology continues to evolve, upgrading classroom tools has become one of our community's highest priorities. Through the incredible efforts of our parent booster organization, the E-TEAM, we have recently purchased 12 Promethean ActivPanel AP10 Boards with stands and 4-year RADIX protection—each at a discounted cost of \$2,808.62. However, with 24 classrooms, a resource room, and dedicated spaces for occupational and speech therapy, we are only halfway toward our goal.

5) How will this grant be used to primarily support or serve a public purpose and benefit the public at-large. (Grants cannot be used as rewards or prizes for individuals)

This grant will directly support the students, families, and staff of Encino Charter Elementary School and, more broadly, the Encino community by advancing equitable access to modern educational technology. Promethean Boards transform traditional classrooms into interactive learning environments where teachers can deliver engaging, multimedia lessons and students can collaborate in real time. By helping fund two additional Promethean Boards, the Encino Neighborhood Council will be investing in public education—a core public good that benefits the community at large. These tools will serve over 520 local students each year, many of whom are neighborhood residents. The technology will also be used for family engagement nights, school-wide assemblies, and community educational events, further expanding the benefit beyond the classroom walls. This investment aligns with the Neighborhood Council's mission to enhance community well-being by supporting educational excellence and access to resources that prepare students to thrive in a technology-driven world. The Promethean Boards are not rewards or prizes for individuals, but shared instructional tools that will be used daily to enrich learning and strengthen the community's connection to its neighborhood school.
