3. Promote equity and access.

Identify barriers and promote awareness of educational opportunities, services, and resources for students and families.

4. Connect students and families with community resources.

Enhance connections among schools, families, and organizations offering educational, mental health, youth development, family, and community support.

5. Create a forum for community voices and solutions.

Offer a consistent forum for students, families, educators, and community members to raise concerns, share ideas, identify needs, and develop constructive solutions.

6. Understand and respond to local educational needs.

Collect input from schools, students, families, and community partners to identify emerging needs and inform committee priorities and activities.
