Sepulveda Basin is tract 980024

Tract 139703 listed as Tarzana in 2019, data added

*something wrong with 139702 calculation, should be 1 in 2019, not 23. Corrected to 1.48

**published conversion is 1.62, others are very close

"Official" Encino count is 51, this is 48. differences probably due to overlapping tracts

Totals may not add due to rounding
