b. Discussion and possible recommendation to file CIS for CF 19-0450.

Motion; HOM-19-08-0002: The ENC Homeless committee recommends that a Community Impact Statement in support of CF 19-0450 be filed.

Suggested Summary: Encino Neighborhood Council supports the effort to improve on the process of cleanups at homeless encampments. The current process of intermittent clean ups does not appear to have yielded any permanent results and has antagonized the various parties involved. The clean ups are taking nearly \$30 million per year from the city budget without offering any solution to our city's Homeless crises. The current process is reactive without offering an effective way of maintaining the sanitation of unhoused residents of this city. The Encino Neighborhood Council believes it would be beneficial to analyze data and metrics of existing clean-up efforts, examine best practices in other jurisdictions, and to assess how well encampment clean-up efforts align with the goals and objectives of the city's Comprehensive Homelessness Strategy. Further the Encino Neighborhood council recommends formation of local advisory councils comprised of Neighborhood Councils, community-based organizations, public health officials and others to help monitor and improve programs. There are significant local issues which need to be addressed rather than adopting a "one suit fits all" approach. We expect significant improvement as a result changes recently enacted which are slated to take effect this Fall. Also important is evaluating the results of the efforts to avoid pursuing failed programs and wasted funds.

- c. **Motion; HOM-19-08-0003:** The ENC Homelessness committee shall issue a letter to the City of Los Angeles departments including but not limited to Council Districts 5 and 6, Sanitation, and Recreation and Parks, and the office of the Mayor requesting that the committee chair and the ENC president be kept informed of any and all actions proposed regarding "sweeps" or other significant action in homeless encampment areas in the ENC territory including the Sepulveda Basin.

According to Article 9 of the Los Angeles City Charter, the purpose of the Neighborhood Councils (NCs) is to have an advisory role on issues of concern to the neighborhood. Further, they are charged with monitoring the delivery of City services in their respective areas. Hard to do if you don't know about anything.

- d. **Motion; HOM-19-08-0004:** Any Homelessness Committee member, including ENC Board members, must notify and obtain permission from, and preferably involve the ENC Homelessness Chairperson and the ENC President prior to speaking with the media, City, State and Federal Officers and/or anyone else and representing themselves in official capacity as representing the ENC and/or its Homelessness Committee.

This is important to convey a coherent and unified message. Further, there are issues that may need to be voted on by the entire board for approval, or that may go beyond the purview of the ENC and should be handled through unrelated avenues such as a non-profit organization. This presents an opportunity to be made aware of this.

- e. **Safe Parking:** Who on the committee would like to begin investigating potential Safe Parking sites in our territory?
- f. **Sanctioned Encampments:** Who would like to research this? Chairperson has started, will provide references.
- g. **Census 2020 and January 2019 PIT count: Who would like to help with this?** It is crucially important that we advocate for a significant role of the neighborhood councils in the 2020 U.S. Census. For our area we need to have an advisory role in counting the unsheltered homeless. Tuesday 7/30/19 at a NC Homeless Liaison meeting at City hall we were assured that both LAHSA counts even the hard-to-find people, and the Census will as well. We know this is nonsense, and we need to get involved. For the past 2 years LAHSA has failed to even try to count the number of homeless in the basin, and they when we find out, it is too late to do anything about it and we are told it really doesn't matter.
- h. Hopefully addressed at this meeting: Regarding the constellation of measures passed by city council and approved by the mayor on advice from the LA Bureau of Sanitation regarding services to encampment areas. (cf 14-1499-s7, 14-1499-s8, 19-0600-s89, 19-0600-s156 et al): **In particular – we need to be aware of any specific and ongoing issues we can weigh in on to lend support.** It appears that funding for the program was approved for current fiscal year in amount of \$4,785,000, this needs to be confirmed. An amendment to the motion requested within 30 days reports by LAHSA, Bureau of Sanitation and LAPD regarding plans and justification for police support of Sanitation CARE teams. Those reports should be available by 8/7/19, we will be very interested in the findings, and truly hope these programs are not derailed by minor issues. Of particular interest to our committee is a provision in the Energy, Climate Change, and Environmental Justice Committee Report of 6/25/19 (attached) that ...”**BOS is to develop and report in 30 days on strategies and an implementation schedule for a) The Sepulveda Basin, in coordination with Department of Recreation and Parks and the Los Angeles homeless Service Authority (LAHSA).**” The reason for our concern on this measure is that LAHSA appears to be both oblivious to and uninterested in the extent of the homeless population in the Basin. RAP is extremely aware of the situation but likely comes to the table with a slant towards law enforcement rather than a combination of outreach, support and mitigation.
- i. Follow progress on proposed audit of the Lanterman-Petris-Short (LPS) act by the California legislature, as supported by Los Angeles City Council Resolution 19-0002-s116.

j. Other ideas:

9. **Future Homelessness Projects/Events:**

West Valley neighborhood Homelessness Alliance events will be presented.

10. **Date of next Homelessness Committee Meeting is October 1, 2019**

11. **Adjournment by 8:30 pm**
